Importance: High

Attached is the draft document the EPA attorney sent to OSHA. It is still in the OSHA concurrence process. Please note we are being told the press conference will be tomorrow (not today). susan

Ragan and Susan:

On Monday during our OEM Sr. Staff meeting, Larry asked me to check with you (R6) about the status of a "Site Control/Access Agreement" to the West site that is/was being worked on. Are you familiar with this ? He indicated that Mark Hayes knows about this. Can you get me a status and, if such agreement has been completed, provide me a copy ?

Thanks,

Gilberto "Tito" Irizarry, Director
Program Operations & Coordination Division Office of Emergency Management U.S. Environmental Protection Agency
